The #1 New York Times–bestselling humorist's tribute to car travel is “a ride worth taking, even for readers who don't know an oil pan from a frying pan” (The Washington Times). From a veteran of both Car and Driver and National Lampoon magazines, this hilarious book chronicles the golden age of the automobile in America—and takes us on a whirlwind tour of the world's most scenic and bumpiest roads in trouble-laden cross-country treks, from a 1978 Florida-to-California escapade in a 1956 special four-door Buick sedan, to a thousand-mile effort across Mexico in the Baja 1000 in 1983, to a journey through Kyrgyzstan in 2006 on the back of a Soviet army surplus six-wheel-drive truck. For longtime fans of the celebrated humorist, the collection features a host of O'Rourke's classic pieces on driving, including “How to Drive Fast on Drugs While Getting Your Wing-Wang Squeezed and Not Spill Your Drink,” about the potential misdeeds one might perform in the front (and back) seat of an automobile; “The Rolling Organ Donors Motorcycle Club,” which chronicles a seven-hundred-mile weekend trip through Michigan and Indiana that O'Rourke took on a Harley-Davidson; his brilliant and funny piece from Rolling Stone on NASCAR and its peculiar culture recorded during an alcohol-fueled weekend in Charlotte, North Carolina, in 1977; and an hilarious account of a ride from Islamabad to Calcutta in Land Rover's new Discovery Trek. “Never in neutral, O'Rourke offers laughter on wheels.” —Publishers Weekly “An insightful look not just at the American love affair with cars, but also at one man's changing outlook on life, all of it fast-paced and over the top . . . Even readers who know nothing about cars and motorcycles will appreciate the joy and hilarity of this book.” —Booklist

The truck's role in American society changed dramatically from the 1960s through the 1980s, with the rise of off-roaders, the van craze of the 1970s and minivan revolution of the 1980s, the popularization of the SUV as family car and the diversification of the pickup truck into multiple forms and sizes. This comprehensive reference book follows the form of the author's popular volumes on American cars. For each year, it provides an industry overview and, for each manufacturer, an update on new models and other news, followed by a wealth of data: available powertrains, popular options, paint colors and more. Finally, each truck is detailed fully with specifications and measurements, prices, production figures, standard equipment and more.

Examining the development of the popular ½-ton American pickup truck during the 60s, this book includes the numerous new alternative designs and engineering approaches. This volume also contains specifications, industry facts and figures, and optional equipment, via detailed text and previously unpublished images.

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

This second collection of historic firefighting images covers 1940 through 1990, five formative decades for fire protection in North Carolina's capital county. During this period, the Raleigh Fire Department quadrupled in size, smaller municipal fire departments modernized, and rural fire departments formed to protect outlying areas. As populations increased and technology advanced, 20th century firefighters found their duties evolving from simple "smoke eating" to include emergency medical services, rescue and extrication, and hazardous-materials training. Raleigh and Wake County Firefighting, Volume II, depicts fires, fire equipment, and firefighters in over 200 images culled from newspapers, archives, and personal collections. Included in this second volume are rare, early photographs of the Six Forks Road, Western Boulevard, and Wake Forest #2 fire departments.
