In 1384, a poor and illiterate peasant woman named Ermine moved to the city of Reims with her elderly husband. Her era was troubled by war, plague, and schism within the Catholic Church, and Ermine could easily have slipped unobserved through the cracks of history. After the loss of her husband, however, things took a remarkable but frightening turn. For the last ten months of her life, Ermine was tormented by nightly visions of angels and demons. In her nocturnal terrors, she was attacked by animals, beaten and kidnapped by devils in disguise, and exposed to carnal spectacles; on other nights, she was blessed by saints, even visited by the Virgin Mary. She confessed these strange occurrences to an Augustinian friar known as Jean le Graveur, who recorded them all in vivid detail. Was Ermine a saint in the making, an impostor, an incipient witch, or a madwoman? Renate Blumenfeld-Kosinski ponders answers to these questions in the historical and theological context of this troubled woman's experiences. With empathy and acuity, Blumenfeld-Kosinski examines Ermine's life in fourteenth-century Reims, her relationship with her confessor, her ascetic and devotional practices, and her reported encounters with heavenly and hellish beings. Supplemented by translated excerpts from Jean's account, *The Strange Case of Ermine de Reims* brings to life an episode that helped precipitate one of the major clerical controversies of late medieval Europe, revealing surprising truths about the era's conceptions of piety and

possession.

Strange Histories presents a serious account of some of the most extraordinary occurrences of European and North American history and explains how they made sense to people living at the time. Using case studies from the Middle Ages and the early modern period, this book provides fascinating insights into the world-view of a vanished age and shows how such occurrences fitted in quite naturally with the "common sense" of the time. Explanations of these phenomena, riveting and ultimately rational, encourage further reflection on what shapes our beliefs today. What made reasonable, educated men and women behave in ways that seem utterly nonsensical to us today? This question and many more are answered in this fascinating book.

This ambitious work has two novel goals: to overcome the extreme fragmentation of early Southeast Asian historiography, and to connect Southeast Asian to world history. Combining careful local research with wide-ranging theory Lieberman argues that over a thousand years, each of mainland Southeast Asia's great lowland corridors experienced a pattern of accelerating integration punctuated by recurrent collapse. These trajectories were synchronized not only between corridors, but most curiously, between the mainland as a whole, much of Europe, and other sectors of Eurasia. He describes in detail the nature of mainland consolidation - which was simultaneously territorial, religious, ethnic, and commercial - and dissects the mix of endogenous and external factors responsible. Here, then, is a fundamentally original analysis not only of Southeast Asia, but of the pre-modern world.
