The Great Perfection (rDzogs chen in Tibetan) is a philosophical and meditative teaching. Its inception is attributed to Vairocana, one of the first seven Tibetan Buddhist monks ordained at Samye in the eight century A.D. The doctrine is regarded among Buddhists as the core of the teachings adhered to by the Nyingmapa school whilst similarly it is held to be the fundamental teaching among the Bonpos, the non-Buddhist school in Tibet. After a historical introduction to Tibetan Buddhism and the Bon, the author deals with the legends of Vairocana (Part I), analysing early documents containing essential elements of the doctrine and comparing them with the Ch'an tradition. He goes on to explore in detail the development of the doctrine in the tenth and eleventh centuries A.D. (Part II). The Tantric doctrines that play an important role are dealt with, as are the rDzogs chen theories in relation to the other major Buddhist doctrines. Different trends in the rDzogs chen tradition are described in Part III. The author has drawn his sources mainly from early unpublished documents which throw light on the origins and development, at the same time also using a variety of sources which enabled him to explicate the crucial position which the doctrine occupies in Tibetan religions. "At a time when each Society had its own medium of propagation of its researches ... in the form of Transactions, Proceedings, Journals, etc., a need was strongly felt for bringing out a journal devoted exclusively to the study and advancement of Indian culture in all its aspects. Another laudable aim was to present the readers abstracts of the most recent researches of scholars in India and the West ... 'Indian antiquary' also dealt with local legends, folklore, proverbs, etc. In short 'Indian antiquary' was ...entirely devoted to the study of MAN - the Indian - in all spheres ... Richard Parkinson's *Thirty years in the South Seas* was first published in 1907. In this 900-page work, Parkinson drew together and expanded on the scientific and popular papers he had been publishing since 1887, creating in the process a landmark ethnography of the Bismarck Archipelago. Parkinson moved to New Britain in 1879, only seven years after the first trader had established himself in the area. Over the next thirty years, he employed many local people on the

family's expanding plantations, and travelled widely in the area, trading for produce (especially coconuts), observing traditional life, and buying artefacts for museums in Europe, USA and Australia. His travels covered the islands now known as New Britain, New Ireland, New Hanover, Manus, Buka and Bougainville, but he also collected information about the mainland of New Guinea (Kaiser Wilhelmsland). His observations covered a wide range of topics, from religious life and ceremonies to artefacts and language. It is clear he talked extensively with people - though mostly with a translator - and compared accounts. He also took many photographs, some 200 of which were included in the volume. Given the period, all his human subjects had to be posed, but the range of associated detail, probably unconsciously included, is substantial. What is particularly important about this work is the period in which it was written. While Parkinson may never have been the first contact of any local people, he was clearly among the first, and observed many societies before they were extensively incorporated into the Western economy, or missionised. Thirty years in the South Seas is unparalleled in the literature of the Bismarck Archipelago. It is an incomparable picture of a time and place now long past.

The liberalization of political and intellectual life in China and the rise of Tibetan exile communities throughout the world have produced a resurgence of spoken and written Tibetan. These developments, together with increasing contacts between Western scholars and Tibetans, have created a widening circle of English-speakers—in government, business, academia, and elsewhere—who need to speak or

write Tibetan with precision and clarity. For these people, and for others who want to communicate with Tibetans in their own language, Professor Goldstein's Dictionary will be an indispensable aid. The first scholarly English-Tibetan dictionary, as well as the only one that is semantically sensitive, this work specifies the Tibetan terms that correspond to the submeanings of a single English term. Containing roughly 16,000 main entries, most of which have multiple subentries, the Dictionary treats a total of 45,000 lexical items. Each entry includes both the written Tibetan orthography and a phonemic notation to indicate pronunciation. Grammatical features are also noted, and all examples of usage are presented with the romanization of the written Tibetan and phonemic notation of the spoken forms. An introductory essay familiarizes users with the main features of Tibetan grammar.

"A memoir of Nadia Murad's time as a captive of the Islamic State, her escape, and her human rights activism"--

Using archaeological, anthropological and philological methodologies, Zhang Zhung presents the formative elements in the development of civilization in Upper Tibet, the vast upland north and west of Lhasa. Part I of this major work provides a comprehensive examination of the monumental and aesthetic traces of the Metal Age and early historic period in Upper Tibet. Based on a field survey

project of twelve years duration, the morphological, constructional, mythological and cross-cultural traits of the region's visible archaeological wealth are described in detail, laying the groundwork for the meticulous textual analysis that follows. In Part II of the book, annotated translations of numerous excerpts from Bon and Buddhist texts present the traditional view of Tibet's ancient past. These indigenous literary accounts of the early cultural, religious and political complex of the Plateau are in turn systematically compared to the archaeological record, revealing critical points of agreement. Zhang Zhung has pioneered the application of empirical evidence to gauge the historicity and significance of Tibetan Bon sources. Part III is devoted to the study of the archaic funerary heritage of Tibet, which proves to be highly useful with regard to analyzing the cultural evolution of the Plateau. New perspectives on the identity and contributions of the Tibetan ethnos are obtained by subjecting Dunhuang and Bon textual materials to rigorous archaeological and ethnographic interpretation. Considerable effort has been devoted to analyzing Tibetan funerary literature and to discerning its links to northern Inner Asian mythology and burial practices of the first millennium BCE and the first three-quarters of the first millennium CE. Critically edited transliterations of the Tibetan works, tables of all the surveyed archaeological sites, bibliographies and extensive

indexes complement the main text.

Boersenblatt.net, 06. 02. 2014 « Nous adorons ce livre ! [...] En tant qu'artiste, j'aime, j'adore les illustrations de ce livre : à

mon avis, elles ne sont pas seulement belles, elles sont parfaites pour les enfants. Mon fils a passé beaucoup de temps à étudier une par une les pages colorées du livre.

Nous l'avons lu deux fois de suite dès la première séance, tellement il était ravi ! Il n'a pas encore un an, c'est donc une épreuve pour lui de rester assis tranquillement, ce livre a

réussi ce tour de force, il est resté assis tout le temps à écouter, avec rien qu'un grand sourire et en montrant les choses qui lui plaisaient sur les pages. » - Amazon Customer

[...] As an artist, I love love LOVE the art in this book, I think its not only beautiful, but perfect for children. My son spent a lot of time just studying every colorful page. We read it twice in the first sitting because he was so happy! He's not yet 1, so getting him to sit still for story time is tough, and this book was such a hit he sat through it with nothing but a big smile and lots of pointing to the stuff he liked on the pages. I highly recommend this book :) Get it get it get it!"-Amazon Customer Review "Written in a very simple way but with a profound message for both adults and kids."-Amazon Customer Review "I LOVED it. Lots of repetition to help 'lil ones get used to structure and words! Many different words being used to help them improve their vocabulary (or pick the best word!). Most importantly, it sends a good message about how being unique and different is good. I STRONGLY suggest you check this book out!"-ESLCarissa.blogspot.com "readers will emerge from this book feeling slightly more confident about themselves-whatever their size."-ForeWord
