"When women are erased from history, what are we left with? Between 1912 and 1922, Ireland experienced sweeping social and political change, including the Easter Rising, World War I, the Irish Civil War, the fight for Irish women's suffrage, the founding of the Abbey Theatre, and the passage of the Home Rule Bill. In preparation for the centennial of this epic decade, the Irish government formed a group of experts to oversee the ways in which the country would remember this monumental time. Unfortunately, the group was formed with no attempt at gender balance. Women and the Decade of Commemorations, edited by Oona Frawley, highlights not only the responsibilities of Irish women, past and present, but it also privileges women's scholarship in an attempt to redress what has been a long-standing imbalance. For example, contributors note the role of the Waking the Feminists movement, which was ignited when, in 2016, the Abbey Theater released its male-dominated centenary program. They also discuss the importance of addressing missing history and curating memory to correct the historical record when it comes to remembering revolution. Together, the essays in Women and the Decade of Commemorations consider the impact of women's unseen, unsung work, which has been critically important in shaping Ireland, a country that continues to struggle with honoring the full role of women today"--

In post-liberation France, the French courts judged the cases of more than one hundred thousand people accused of aiding and abetting the enemy during the Second World War. In this fascinating book, Sandra Ott uncovers the hidden history of collaboration in the Pyrenean borderlands of the Basques and the Barnais in southwestern France through nine stories of human folly, uncertainty, ambiguity, ambivalence, desire, vengeance, duplicity, greed, self-interest, opportunism and betrayal. Covering both the occupation and liberation periods, she reveals how the book's characters became involved with the occupiers for a variety of reasons, ranging from a desire to settle scores and to gain access to power, money and material rewards, to love, friendship, fear and desperation. These wartime lives and subsequent postwar reckonings provide us with a new lens through which to understand human behavior under the difficult conditions of occupation,

While sitting in a small cafe one day, I had a feeling that I could write a book about a story that came to my mind that would be enjoyed by family, friends, and everyone else. I wanted to share the joy that the Christmas season brings. The New Cadet is a coming of age story about eighteen year old Alicia Randall, who enters The College of Armed Forces, CAF, as the second class of women. During her first year, she is faced with the rigorous challenges of the Tick Line and attempts to juggle her life within the college while staying connected to her old life. When her life outside the school shatters, Alicia begins walking the plank between falling apart and surviving. What ends up saving Alicia is a new found relationship with a woman, Cathleen, who introduces a variety of books, which expands Alicia's awareness and puts her on a new path of self discovery and spiritual awareness. The trials and tribulations from the school extend beyond the Tick Line when Alicia is accused of participating in behavior that is "unbecoming of an officer," and it takes every last ounce of strength to survive the school she had promised her brother she would never leave. In using the new concepts Cathleen taught her, it is those ideas that consequently give Alicia the

Death of a Rebel tells the story of Charles Andrews Fenton (1919-1960), a charismatic teacher, scholar, and writer who took his own life by jumping from the top of the Washington Duke Hotel in Durham, North Carolina. At the time he was apparently at the peak of his career. He had written excellent books on Hemingway and Stephen Vincent Benet, had three other books in press, and was working on a new version of his novel about World War II (a 1945 account won the Doubleday Twentieth Century Fox award). He had earned Guggenheim and ACLS grants. Students flocked to his courses. He was widely regarded as the most popular professor at Duke. Charlie Fenton's story is a compelling one, and takes on further meaning in the context of the times. An individualist during the notoriously conformist 1950s, he swam against the current, defying authority and openly inviting controversy. This jaunty refusal to accept received wisdom made him an appealing figure to many of his students and colleagues. But it was a dangerous stance that did not sit

well with his superiors, and it cost him when his fortunes took a turn for the worse in the spring and summer of 1960. Love and war had a lot to do with his suicide as well. Charlie Fenton, who had come down to Duke from Yale two years earlier with a promotion to full professor, fell in love with one of his graduate students. His wife, outraged, left and took their son Andy with her. The scandal left him alone and a social pariah around campus. Then he suffered one of his bouts of depression. Usually these periods were triggered by trauma, most of it derived from his service as a tail gunner with the RAF bomber command in the summer and fall of 1942. In the past he had always been able to shake free of his despondency. This time he was overcome by psychological pain deriving from loss: of wife and family, of public admiration, of companionship, and worst of all, of self-regard. The book recounts Fenton's last days in vivid detail. In writing it, Donaldson had the assistance of family members, of his devoted students, and even at a painful distance of the woman he fell in love with fifty years ago. They all share an abiding sense of what might have been, and a deep regret that he could not go on to inspire the uncounted students who would never get to know and admire and learn from him." This collection of one novella and three short stories captures the traditional, emotional spirit of Christmas and presents the spirit in contemporary settings. Holly Day's Caf, the novella, relates the story of the last day of business at a Kentucky diner. This last day happens to be Christmas Eve. It is also the day of a rare blizzard-one which strands several customers in the diner. What occurs next demonstrates the magic and wonder of the power and spirit of Christmas.
