I've been selling online for fifteen years now. During that time I've learned a lot about bookkeeping, business permits, and taxes. During that same time I have saved thousands of dollars in taxes by saving my receipts and keeping good records. And, so here's the deal... > Did you know eBay has an app that can automatically import all of your sales, fees, and other information and crunch the numbers to show whether you're making a profit or loss? > Did you know that same app will also import all of your information from Etsy and Amazon, if you sell on those platforms? > What would you say if I told you that you could save \$500 or more on your taxes every year just by writing down the mileage when you head to the post office, store, or bank? > And, you'd probably think I'd lost my marbles if I told you that you could deduct parts of your next vacation from your taxes. The advice in this little book can easily save you thousands of dollars every year.

Everyday eBay is the first scholarly analysis of the internet marketplace that has become a global social, cultural and economic phenomenon. The eighteen new and classic essays gathered here examine eBay from a wide variety of perspectives as a bellwether of taste and material culture; as a rich site of cultural, racial, and sexual discourse and practice; as an emergent media form; and as a facilitator of global consumerism. From old toys steeped in nostalgia to 'rare' limited edition shoes, the contributors demonstrate that value on eBay is never simply about 'price'. On any given day, more than two million items are listed for sale on eBay, from everyday objects to kitsch and collectibles to the truly bizarre. Since its debut ten years ago, eBay has quickly become a central destination for millions of web browsers. According to eBay itself, up to 165,000 Americans now make their living by selling through the website, and other business analysts project that hundreds of thousands of individuals worldwide now make their living through eBay.

Here is some BAD news first; trying to make money on eBay selling Brand Name products is NOT the way to make money! Here's why, even if you could manage to locate a source of genuine products you would have to spend \$1,000's just to get enough discount to make even a small profit. You see there are just too many sellers competing for the same business. Brand name products are just too expensive to buy, the margins are slim and there is too much competition. There must be an easier way to make money? Well there is, the market for non branded and private label products on eBay is huge and this approach works in any market, it costs a tiny amount to set up and the profit margins are outrageous and it is much easier than most people would believe. In this comprehensive book I show you step by step how to build your own eBay empire selling Private Label and Non Branded stock. The profit margins on private label products and non branded products are massive. The Advantage Of Private Label Products Are:

- No one can directly compete with you as you own the brand.
- Your customers will know where you sourced product from.
- Private labelling is widespread across many industry sectors as is non branded products.
- Small minimum orders allow us to test products for a tiny risk.
- You can build an entire business using Private Label & Non Branded Products
- Compete with household name products at a fraction of the price of stocking branded items.
- You are almost always dealing directly with the manufacturer so no wholesalers cut. As no one is selling exactly the same product as yourself and no one will know where you bought it from, you can sell at your own price. I even provide a list of Private Label Suppliers and Manufacturers who stock a massive range of product that you can sell in multiple niche markets these are the exact same sources I use in my eBay businesses. This is your COMPLETE blueprint to building your own profitable eBay business on a shoestring and making outrageous profits.
