"Telling you all you need to know about buying, preparing and selling modern classic cars, this book guides you through the minefield that is the world of car dealing, and helps you avoid the pitfalls that await the unwary"--P. [4] of cover.

Two very different brothers, grow up in a close Italian-American family in a small town in Westchester County, New York. The responsible younger brother aids his reckless brother through the trials of his life. The book traces the journey of each brother through the 1960's to the present day, relating their careers, loves, and relationship with one another and the women in their lives. The story begins hundreds of years earlier with a glimpse of ancestors past, revealing very famous ties and ultimately leads to the curious events in the lives of both brothers. The simple life in the old country contributes to the paths both brothers take. There is a strong connection to Asia where one brother faces the horrors of the war in Vietnam and the other travels to China for adventure and inspiration. Cultures and national heritage enrich the human interactions and connections between friends, families and lovers and show that different backgrounds are less important to relationships than human emotions.
