This book explores the evolution of British identity and participatory politics in the 1790s. Wil Verhoeven argues that in the course of the French Revolution debate in Britain, the idea of "America" came to represent for the British people the choice between two diametrically opposed models of social justice and political participation. Yet the American Revolution controversy in the 1790s was by no means an isolated phenomenon. The controversy began with the American crisis debate of the 1760s and 1770s, which overlapped with a wider Enlightenment debate about transatlantic utopianism. All of these debates were based in the material world on the availability of vast quantities of cheap American land. Verhoeven investigates the relation that existed throughout the eighteenth century between American soil and the discourse of transatlantic utopianism: between America as a physical, geographical space, and "America" as a utopian/dystopian idea-image.

"Samantha Barbas delineates the life of famed lawyer and political advisor Morris Ernst, an early shaper of the American Civil Liberties Union. Today's fundamental challenges to free speech, expressive rights, and the exercise of political power

make Ernst's battles to establish the cultural and legal norms of the twentieth century freshly interesting-particularly his role in framing the right to privacy. Barbas details Ernst's legendary free speech cases but also his manipulative ways and idiosyncratic and troubling political associations. A vital and conflicted man, Ernst was shaped strongly by the intersection of his legal ideas and the driving politics of his time"--

And the pages you hold are the moments of life frozen in time, emotions that have engulfed me, kicked me in the gut, made me fly, and threw me into an abyss. When the world around you trembles and there is no place to hide, that is when poetry is born...

pedmont in 1777, Frank died a free man in 1854 in a town he had founded in western Illinois. His accomplishments, creditable for any frontiersman, were for a black man extraordinary. We first learn details of Frank's life when in 1795 his owner moved to Pulaski County, Kentucky. We know that he married Lucy, a slave on a neighboring farm, in 1799. Later he was allowed to hire out his time, and when his owner moved to Tennessee, Frank was left in charge of the Kentucky farm. During the War of 1812, he set up his own saltpeter works, an enterprise he maintained until he left Kentucky. In 1817 he purchased his wife's freedom for \$800; two years later he bought his own liberty for the same price. Now free, he expanded his activities, purchasing land and dealing in livestock. With his wife and four of his children, Free Frank left Kentucky in 1830 to settle on a new frontier. In Pike County, Illinois, he purchased a farm and later, in 1836, platted and successfully promoted the town of New Philadelphia. The desire for freedom was an obvious spur to his commercial efforts. Through his lifetime of work he purchased the liberty of sixteen members of his family at a cost of nearly \$14,000. Goods and services commanded a premium in the life of the frontier. Free Frank's career shows what an exceptional man, through working against great odds, could accomplish through industry, acumen, and aggressiveness. His story suggests a great deal about business activity and legal practices, as well as racial conditions, on the frontier. Juliet Walker has performed a task of historical detection in recreating the life of Free Frank from family traditions, limited personal papers, public documents, and

secondary sources. In doing so, she has added a significant chapter to the history of African Americans.
