For courses in Sales and Personal Selling. Extensive, real-world applications, carefully integrated with current personal selling concepts. *Selling Today: Partnering to Create Value* helps students understand the value of developing their personal selling skills by exposing them to a careful integration of personal selling academic theory and real-world applications. And with the largest number of learn by doing materials available in any personal selling text, Manning/Ahearne/Reece offers instructors a variety of teaching tools to strengthen the learning process. As the developed nations of the world transition from a production focus to a sales-and-service focus, this cutting-edge new edition prepares students to succeed as members of a new generation of businesspeople.

This Online Course Pack consists of *International Business, Second Edition*, by Stuart Wall and Bronwen Rees (ISBN: 0273685910), plus access to a Pearson Education Online Course (ISBN: 0273700278).

International Business provides an accessible and theoretically rigorous introduction to the subject. Starting with an in-depth analysis of the environmental factors, the book then examines the functional and operational issues which organisations face in doing business internationally. This coherent structure is supported by a

strong pedagogical framework within the text, and further substantial resources available on a companion website. The second edition of the text offers a thorough update of all material. New and revised cases and examples are extended to incorporate FT articles and extracts, allowing students to see the practical applications of the key concepts. Ideally suited for undergraduate and postgraduate degrees and modules in International Business, its accessibility will also appeal to "non-specialist" students from disciplines outside business and management who take an elective module in the subject.

The Expert series provides rigorous exam training for high-achieving students while continuing to develop language awareness and communication skills. This intensive course for the Pearson Test of English Academic exam consists of a coursebook and MyEnglishLab. This combination of components will prove to satisfy your students' practice needs and allow them to achieve their full potential.

Effective medium-term planning is the 'holy grail' of planning. Once teachers are able to conceptualise learning over a longer period of time, they are empowered to achieve outstanding learning as part of their everyday teaching. This book explains why medium term plans are important and how to go about constructing them. Key coverage includes: Practical guidance to support teachers to build their own effective medium-term plans Examples of planning in action, exploring key principles that can

be applied to your own practice Theoretical and practical justifications for the importance of medium-term planning Exploration of the links between raising attainment and effective medium-term planning This is essential reading for initial teacher education students on university-based and school-based courses preparing to teach in primary and secondary education, and early career teachers seeking to continue their professional learning.

For courses in introductory statistics. A

Contemporary Classic Classic, yet contemporary; theoretical, yet applied--McClave & Sincich's *A First Course in Statistics* gives you the best of both worlds. This text offers a trusted, comprehensive introduction to statistics that emphasizes inference and integrates real data throughout. The authors stress the development of statistical thinking, the assessment of credibility, and value of the inferences made from data. This new edition is extensively revised with an eye on clearer, more concise language throughout the text and in the exercises. Ideal for one- or two-semester courses in introductory statistics, this text assumes a mathematical background of basic algebra. Flexibility is built in for instructors who teach a more advanced course, with optional footnotes about calculus and the underlying theory. MyStatLab™ not included. Students, if MyStatLab is a recommended/mandatory component of the course,

please ask your instructor for the correct ISBN and course ID. MyStatLab should only be purchased when required by an instructor. Instructors, contact your Pearson representative for more information. MyStatLab is an online homework, tutorial, and assessment product designed to personalize learning and improve results. With a wide range of interactive, engaging, and assignable activities, students are encouraged to actively learn and retain tough course concepts.

Classic, yet contemporary. Theoretical, yet applied. McClave & Sincich's *Statistics: A First Course in Statistics* gives you the best of both worlds. This text offers a trusted, comprehensive introduction to statistics that emphasizes inference and integrates real data throughout. The authors stress the development of statistical thinking, the assessment of credibility, and value of the inferences made from data. The Eleventh Edition infuses a new focus on ethics, which is critically important when working with statistical data. Chapter Summaries have a new, study-oriented design, helping students stay focused when preparing for exams. Data, exercises, technology support, and Statistics in Action cases are updated throughout the book. In addition, MyStatLab will have increased exercise coverage and two new banks of questions to draw from: Getting Ready for Stats and Conceptual Question Library. Ideal for one- or two-semester courses in introductory statistics, this text assumes a mathematical background of basic algebra. Flexibility is built in for instructors who teach a
