The story of Rome is the most splendid romance in all history. A few shepherds tend their flocks among volcanic hills, listening by day and night to the awful warnings of the subterranean voice,—born in danger, reared in peril, living their lives under perpetual menace of destruction, from generation to generation.

Then, at last, the deep voice swells to thunder, roaring up from the earth's heart, the lightning shoots madly round the mountain top, the ground rocks, and the air is darkened with ashes. The moment has come. One man is a leader, but not all will follow him. He leads his small band swiftly down from the heights, and they drive a flock and a little herd before them, while each man carries his few belongings as best he can, and there are few women in the company. The rest would not be saved, and they perish among their huts before another day is over. Down, always downwards, march the wanderers, rough, rugged, young with the terrible youth of those days, and wise only with the wisdom of nature. Down the steep mountain they go, down over the rich, rolling land, down through the deep forests, unhewn of man, down at last to the river, where seven low hills rise out of the wide plain. One of those hills the leader chooses, rounded and grassy; there they encamp, and they dig a trench and build huts. Pales, protectress of flocks, gives her name to the Palatine Hill. Rumon, the flowing river, names the village

Rome, and Rome names the leader Romulus, the Man of the River, the Man of the Village by the River; and to our own time the twenty-first of April is kept and remembered, and even now honoured, for the very day on which the shepherds began to dig their trench on the Palatine, the date of the Foundation of Rome, from which seven hundred and fifty-four years were reckoned to the birth of Christ. And the shepherds called their leader King, though his kingship was over but few men. Yet they were such men as begin history, and in the scant company there were all the seeds of empire. First the profound faith of natural mankind, unquestioning, immovable, inseparable from every daily thought and action; then fierce strength, and courage, and love of life and of possession; last, obedience to the chosen leader, in clear liberty, when one should fail, to choose another. So the Romans began to win the world, and won it in about six hundred years.

The first English translation and examination of secret Japanese writings dating from the paleolithic to classical eras • Examines four suppressed and secret texts to discover the deeper truths beneath Japanese mythology • Introduces evidence

of ancient civilizations in Japan, the sacred geometry of primitive times, and claims of a non-Earthly origin of the Emperors • Explores how these texts convey the sacred spiritual science of Japan's Golden Age with parallels in ancient India, Europe, and Egypt In Japan there are roughly two dozen secret manuscripts originally dating back to the paleolithic era, the age of heroes and gods, that have been handed down by the ruling families for centuries. Rejected by orthodox Japanese scholars and never before translated into English, these documents speak of primeval alphabets, lost languages, forgotten technologies, and the sacred spiritual science. Some even refer to UFOs, Atlantis, and Jesus coming to Japan. Translating directly from the original Japanese, Avery Morrow explores four of these manuscripts in full as well as reviewing the key stories of the other Golden Age chronicles. In the Kujiki manuscript Morrow uncovers the secret symbolism of a Buddhist saint and the origin of a modern prophecy of apocalypse. In the Hotsuma Tsutaye manuscript he reveals the exploits of a noble tribe who defeated a million-strong army without violence. In the Takenouchi Documents he shows us how the first Japanese emperor came from another world and ruled at a time when Atlantis and Mu still existed. And in the Katakamuna Documents the author unveils the sacred geometries of the universe from the symbolic songs of the 10,000-year-old Ashiya tribe. He also

discusses the lost scripts known as the Kamiyo Moji and the magic spiritual science that underlies all of these texts, which enabled initiates to ascend to higher emotional states and increase their life force. Taking a spiritual approach à la Julius Evola to these “parahistorical” chronicles, Morrow shows how they access a higher order of knowledge and demonstrate direct parallels to many ancient texts of India, Europe, and Egypt.

Alisa Perne is the last vampire. Beautiful and brilliant, she hunts alone, living among humans, living off humans. But someone is stalking her. Someone wants her dead. And Alisa has a choice to make - to keep a long held promise or protect the mortal she seems to be falling for. The New York Times said of Ronald H. Spector’s classic account of the American struggle against the Japanese in World War II, “No future book on the Pacific War will be written without paying due tribute to *Eagle Against the Sun*.” Now Spector has returned with a book that is even more revealing. In the *Ruins of Empire* chronicles the startling aftermath of this crucial twentieth-century conflict. With access to recently available firsthand accounts by Chinese, Japanese, British, and American witnesses and previously top secret U.S. intelligence records, Spector tells for the first time the fascinating story of the deadly confrontations that broke out—or merely continued—in Asia after peace was proclaimed at the end of World War II. Under occupation by the victorious Allies, this part of the world was plunged into new power struggles or back into old feuds that in some ways were worse than the war itself. In the *Ruins of Empire* also shows how the U.S. and Soviet governments, as they secretly vied for influence in liberated lands, were soon at odds. At the time of the peace

declaration, international suspicions were still strong. Joseph Stalin warned that “crazy cutthroats” might disrupt the surrender ceremony in Tokyo Bay. Die-hard Japanese officers plotted to seize the emperor’s palace to prevent an announcement of surrender, and clandestine relief forces were sent to rescue thousands of Allied POWs to prevent their being massacred. In the Ruins of Empire paints a vivid picture of the postwar intrigues and violence. In Manchuria, Russian “liberators” looted, raped, and killed innocent civilians, and a fratricidal rivalry continued between Chiang Kai-shek’s regime and Mao’s revolutionaries. Communist resistance forces in Malaya settled old scores and terrorized the indigenous population, while mujahideen holy warriors staged reprisals and terror killings against the Chinese—hundreds of innocent civilians were killed on both sides. In Indochina, a nativist political movement rose up to oppose the resumption of French colonial rule; one of the factions that struggled for supremacy was the Communist Viet Minh led by Ho Chi Minh. Korea became a powder keg with the Russians and Americans entangled in its north and south. And in Java, as the Indonesian novelist Idrus wrote, people brutalized by years of Japanese occupation “worshipped a new God in the form of bombs, submachine guns, and mortars.” Through impeccable research and provocative analysis, as well as compelling accounts of American, British, Indian, and Australian soldiers charged with overseeing the surrender and repatriation of millions of Japanese in the heart of dangerous territory, Spector casts new and startling light on this pivotal time—and sets the record straight about this contested and important period in history.

I will not surrender to terrorism By Mr.Gijo Vijayan. This book aims at preventing

a person from becoming a terrorist. The author aim at killing the motive behind terrorism, whatever may be the reason behind. Forgive and forget, the world will be safer. An eye for an eye make the whole world blind, said Mahatma Gandhi. If you know anyone, who has extreme and radical views on religion or any ideology, that cause harm to society. This book can be an eye opener to narrow minded people, who think I am right and whole world is wrong. Stop revenge, forgive and forget, the world will be safer. For nations to live in peace, stop quest for dominance, stop trying to grab someone's land or sea. More investment in military makes common people suffer indirectly. Billions of dollars spent on military expenses can be diverted for betterment of the lives of people, if there is no friction between nations. Billions of dollars spent on atom bombs, missiles, ships, fighter planes etc will eventually of no use to the betterment of humanity. If a third world war occurs, there won't be anyone left to celebrate victory, so it is foolishness to wage war in the name of any ideology or religion. There is only One way to stop terrorism - Education. When millions of people refuse to become terrorist at any cost - by applying thought, the purpose of this book is achieved. To kill terrorism, we must kill the motivation behind terrorism. When you refuse to become a terrorist, you make the world safer. When millions of people around the world refuse to become terrorists, we all win. So, take a pledge today itself, -I will

not become a terrorist. -I will not allow my kids to become terrorists. -I will not change my mind, because of people or circumstances around me. -No media, politics or religion can manipulate me. -I will help misguided people to leave the path of terrorism.

This is an account of one of life's most painful experiences--the sudden death of a child. A mother's anguish compels her to examine beliefs about what comes after death and to explore ancient healing methods in Mexico, Brazil, and Bali. At its core a spiritual odyssey, *The Sacred Wound* is about creating meaning from life-shattering events--events which can utterly destroy us or serve as a call to extraordinary courage and growth. A life-shattering event is a modern day "sacred wound," a wounding so profound that it pierces the soul and penetrates the veils of who we are and what we think life is about. Like a mythological hero, we will emerge from the ordeal another person. As the author says, "For three years grief was my consort, it became my teacher." This inspiring and searingly honest book is about more than survival following the death of a loved one; it is about the gift in tragedy's other hand. It is about discovering the truth that love is the central experience of life and not simply mortality, and that this truth can emerge in ways we can never predict or expect

The reader of this book is hereby warned that this informative book is somewhat a loaded manuscript that reviews religio-spiritual affirmations in an uncompromising manner. It is broad and thus requires open mindedness. The reader is also made aware right here at the outset that this book is not written by puppets of conventional religio - spiritual vanguards. This book is an introduction to rational Comparative Religiology. It informs about the reason why created (expanded into) The Whole All as already mentioned supra. History informs us that the living being (soul) in the human form experienced fulfillment and unfulfillment coexistence in the materio-physical existence of God TUDB under control by Ishvara (the ultimate Divine controller of The Whole All in every respect), and embarked on various endeavours (theistically and atheistically) in pursued to escape from unfulfillment (evilness) – see [www.worldreligions.com](http://www.worldreligions.com) for such pursuits by theists. Secret Societies (e. g Freemasons, Priory of Sion, Knights Templar, Zionists, Opus Dei, The Pope's Armada, The Illuminati, etc) were not reviewed in this book though these 'secret societies' play their roles in the religio-spirituality of humanity. The reader may visit <http://www.thecrowhouse.com> and may also search for Conspiracies of Life on YouTube and learn about things that would evoke his or her

consciousness about the complex nature of Life. We urged God TUDB in tautology to salvage us from those who might be irritated / upset / angered / challenged by the manner in which we rationalized on sacred matters in this book.

Just as a harmony of the Gospels is useful for tracing the life of our Lord Jesus Christ, this easy-to-use book provides the Bible student with a reference guide to the history of the kings of Judah and Israel as preserved in the books of Samuel, Kings, and Chronicles. Preceding the harmony itself is a complete analytical outline--a concise, sequential table of events that will give the reader a greater understanding and firmer grasp of the history of Judah and Israel. Students of Scripture will find this harmony and its accompanying analytical outlines invaluable in gaining a historical perspective that will make the study of Samuel, Kings and Chronicles profitable and rewarding.

This is the story of LSD told by a concerned yet hopeful father, organic chemist Albert Hofmann. He traces LSD's path from a promising psychiatric research medicine to a recreational drug sparking hysteria and prohibition. Underlying it all is Dr. Hofmann's powerful conclusion that mystical experience may be our planet's best hope for survival. Whether induced by LSD, meditation, or arising spontaneously, such experiences help us to comprehend the wonder, the mystery of the divine in the microcosm of the atom, in the macrocosm of the spiral nebula, in the seeds of plants, in the body and soul of people. Now, more than sixty years after the birth of Albert Hofmann's problem

If he weren't the best security money could buy, she'd want no part of the cocky womanizer. But she needs him. The sudden rush of near hit and runs is proof of that. As the threats escalate, she sees a side of the bad boy he's tried to hide-and his strong arms provide comfort and something more she didn't know she needed.
