In any age, humans wrestle with apparently inexorable forces. Today, we face the threat of global terrorism. In the aftermath of September 11, few could miss sensing that a great evil was at work in the world. In Flannery O'Connor's time, the threats came from different sources—World War II, the Cold War, and the Korean conflict—but they were just as real. She, too, lived through a “time of terror.” The first major critical volume on Flannery O'Connor's work in more than a decade, *Flannery O'Connor in the Age of Terrorism* explores issues of violence, evil, and terror—themes that were never far from O'Connor's reach and that seem particularly relevant to our present-day setting. The fifteen essays collected here offer a wide range of perspectives that explore our changing views of violence in a post-9/11 world and inform our understanding of a writer whose fiction abounds in violence. Written by both established and emerging scholars, the pieces that editors Avis Hewitt and Robert Donahoo have selected offer a compelling and varied picture of this iconic author and her work. Included are comparisons of O'Connor to 1950s writers of noir literature and to the contemporary American novelist Cormac McCarthy; cultural studies that draw on horror comics of the Cold War and on Fordism and the American mythos of the automobile; and pieces that shed new light on O'Connor's complex religious sensibility and its role in her work. While continuing to speak fresh truths about her own time, O'Connor's fiction also resonates deeply with the postmodern sensibilities of audiences increasingly distant from her era—readers absorbed in their own terrors and sense of looming, ineffable threats. This provocative new collection presents O'Connor's work as a touchstone for understanding where our culture has been and where we are now. With its diverse approaches, *Flannery O'Connor in the Age of Terrorism* will prove useful not only to scholars and students of literature but to anyone interested in history, popular culture, theology, and reflective writing. Avis Hewitt has published articles in *Flannery O'Connor Review*, *Christianity and Literature*, and *Renascence*. She is associate professor of English at Grand Valley State University in Allendale, Michigan. Robert Donahoo is professor of English at Sam Houston State University in Huntsville, Texas. He has published articles in *Flannery O'Connor Review*, *Literature and Belief*, *Journal of Contemporary Thought*, and *Journal of the Short Story in English*.

Flannery O'Connor's fiction is a reminder that the rural South is as good a place as any for transcendence to break through and reveal itself to the human gaze. The story of Flannery O'Connor's life is the story of her inner life more than her outer life. In a letter to a friend she wrote, "My audience are the people who think God is dead. At least these are the people I am conscious of writing for." And writing for such a people required that she find a whole new language, a language she had to make up as she went along, drawing startling and large figures to get the attention of the almost blind, shouting in the ear of the almost deaf. Her famous short story *A Good Man Is Hard to Find* was once called "profane, blasphemous, and outrageous," but for O'Connor, the real horror was never violence or deformity, but damnation. Horror that awakens a soul to its own danger and prepares it to receive grace is no horror, but a mercy. "The devil," she wrote, "accomplishes a good deal of groundwork that seems to be necessary before grace is effective." In *The Terrible Speed of Mercy* Jonathan Rogers chronicles how a conventional, devout middle-class lady from a dairy farm in Milledgeville, Georgia, came to write stories that were like literary thunderstorms, turning on sudden violence and flashes of revelation that crashed down from the heavens, destroying even as they illuminated.

Because I had no control over what I was writing, my hands were guided, and the urge was so great, and in most cases I had no idea what I had written and had to read it myself in order to find out. I discovered that everything made sense and was in poetic form. I felt like it came from a higher source and so was born the title.

A PATIENT'S PERSPECTIVE: There have been an increasing number of articles and books by medical professionals warning us of the hospital dangers, but very few by patients based on their personal experience. This I will guarantee; your awareness of my experience will drastically change your perception of our medical service. You will be less certain, less trusting, more perceptively critical, but safer. Hospitals kill 100,000 patients per year mostly through unintended medical errors. Medical complications following my routine procedure were so severe it resulted in horrific corrective measures exposing me to months of accumulated hospital treatment. The book portrays vividly and honestly how one is more likely to be killed in the hospital than anywhere else on the planet. So read on! That makes the hospital, our haven of wellness, the most dangerous institution in the world. The life you save may be your own - or one even more precious to you. I was fortunate (lucky enough) to survive five major surgeries, with complications, in as many years. This book describes my experience in vivid detail--with essential recommendations regarding what you need to know and do for those you care for before you become a patient.

Agnes Moorehead (1900-74) was unique among twentieth-century American actresses in making a major career for herself in all four entertainment media after the age of 40. As the title indicates, *Agnes Moorehead on Radio, Stage and TV* focuses on Moorehead's career in radio, on the stage, and in television. A representative selection of 25 of her most interesting and representative performances in these media are discussed in separate profiles ranging in length from 1,500 to 7,500 words, with the longest chapters devoted to *Mayor of the Town*, *Suspense*, Moorehead's one-woman show, *Bewitched* and *Gigi*. Naturally, the book also covers Moorehead's celebrated appearance on *The Twilight Zone*, both her productions of *Don Juan in Hell*, and her Emmy-winning appearance on *The Wild Wild West*. Many less well-known performances have never been analyzed in detail before. These include fascinating and entertaining portrayals on TV series such as *Wagon Train*, *Adventures in Paradise*, *Rawhide* and *Burke's Law*. The profiles are organized in chronological order. Thus, from *The Shadow* to *Gigi*, the book can be read as a continuous, chronological narrative of Moorehead's unfolding acting career through more than three decades; or the individual chapters may be read as self-contained accounts of individual shows and performances. Each profile concentrates on Moorehead's contribution to the show or episode. In addition to analyzing the nature and function of Moorehead's role and how she performs it, the author variously discusses the place of the performance in her career development as a whole; her relationship with directors, producers, and/or fellow actors: comparisons and contrasts with similar types of roles in the same or other media; and curious, little known facts about the production. Nissen also

discusses salient events in Moorehead's personal life at the time.

Daniel Moran explains how O'Connor attained that status, and how she felt about it, by examining the development of her literary reputation from the perspectives of critics, publishers, agents, adapters for other media, and contemporary readers.

My analysis will show that disability and spirituality join together to reveal the autonomy disabled characters possess. These characters, deemed "disabled" in society because of genetics, choices, accidents, and illnesses, are both transformed themselves and serve as the catalyst in transforming others. To better understand the content chapters of my analysis, the introduction outlines O'Connor's personal experience as a disabled woman, the terminology of disability, the American movement of Eugenics, and the importance of key elements of the short fiction genre. I explore how the characters in Flannery O'Connor's short stories manifest their spiritual shortcomings through their physical disabilities. In some cases, the limitations of the disabled are not indicators of their own spiritual disabilities, but rather the catalyst for the reader to understand the spiritual lack of the able-bodied foil. In "Good Country People," "The Life You Save May Be Your Own," "The Enduring Chill," "The Turkey," "The Temple of the Holy Ghost," and "The Lame Shall Enter First," the dynamic focusing character in the narrative will have a moment of epiphany catalyzed by disability -- either their own as in Chapter 2, or of another as in Chapter 3. For each example I highlight the moment of epiphany and comment on the possible enlightenment the character achieves while addressing O'Connor's methods of combating the Eugenics Movement. By exploring three of O'Connor's short stories -- "Good Country People" (1955), "The Life You Save May be Your Own" (1955), and "The Enduring Chill" (1958) -- in Chapter 2, a similar redemptive trajectory will appear for each of the disabled protagonists. Though not all of the characters complete their arc of enlightenment, each comes to a revelation that links their body and spirit, allowing them to view the world they have created for themselves from a new perspective. Far from presenting the disabled body in a poor light or in jest, O'Connor instead proves to the reader that all men and women are equalized through a disabled spirit. In the three stories of Chapter 2, circumstances acted as the catalysts for the revelations. However, as I discuss in Chapter 3, in other O'Connor stories, the disabled character acts as the catalyst for the able-bodied character's epiphany. By examining "The Turkey," "A Temple of the Holy Ghost," and "The Lame Shall Enter First," the trend of a disabled catalyst will be revealed. In these stories, the focus is on the able-bodied epiphany, rather than the disability. In other words, showing the protagonist's journey of transformation, as catalyzed by a disabled character, is the main goal of the analysis. O'Connor wrote stories that gave disabled characters a voice in the midst of the pervasive social approval of the eugenics movement. But beyond giving disabled characters a voice, she wrote about autonomous characters who were catalysts for change, both in themselves and in others. Though the dynamic characters in each of these six stories ended their journey at a different stage, each experienced a moment of epiphany at the crossroads of physical and spiritual disability.

ihres Todes ein Gefühl der Würde erleben dürfen, ohne das ihr weiteres Leben ohnehin nicht lebenswert und völlig sinnlos gewesen wäre. Trotz der zahlreichen Horrorvisionen enthüllt O'Connor unweigerlich eine Komik, die dem Leser das Lachen jedoch zum Teil im Hals stecken bleiben lässt. O'Connor erzählt von einer aus den Fugen geratenen Welt, in welcher der leere Glaube an die konventionelle Ordnung eine große Rolle spielt. Doch gerade die Notwendigkeit der Zerstörung dieser Ordnung und der Hinwendung zu einem „level of mystery“, einem tiefgehenden, alles andere als oberflächlichen System, das von göttlicher Macht herrührt, ist die zentrale Botschaft ihrer Short Stories. Der Glaube der Charaktere wird mit Hilfe von Schockerlebnissen durch Außenseiter und ihre Einstellung auf die Probe gestellt und führt schließlich zu einer tieferen Erkenntnis. Besonders in *A good man is hard to find* und *The life you save may be your own* offenbart sich die Ungerechtigkeit der Welt, die Grausamkeit der Menschheit und die Borniertheit und Intoleranz konservativer Südstaatler. O'Connor kritisiert zudem die gleichgültige Einstellung der Menschen, die nur auf ihren eigenen Nutzen ausgerichtet sind und ihre meist materialistischen Absichten ohne Rücksicht auf Verluste durchzusetzen versuchen. Diese Arbeit setzt sich zum Ziel, eine Interpretation der oben genannten Kurzgeschichten Flannery O'Connors bei gleichzeitigem Vergleich der beiden Werke zu liefern. [...]
